[GitHub](#) | [Portfolio](#) | [LinkedIn](#)

Passionate software developer with a knack for combining technical know-how and creative elements to design user-friendly applications. Highly motivated and solution-driven, excelling in collaborative work environments with the ambition to solve various problems efficiently. A firm believer that education should never stop, and knowledge should continuously expand by keeping abreast of the evolving trends, techniques, and technologies to streamline efficiency. Earned a Certificate of Completion in Full-Stack Web Development at the University of Denver with the skills necessary to design, create and bring concepts to life.

Technical Skills

1. Front-end Development (HTML5, CSS3, JavaScript ES6, React, Handlebars, Bootstrap).
2. Back-end Development (Node.js, Express, Firebase, MySQL, MongoDB, NPM).
3. Internet and technology savvy.
4. Effective communication.

Applications Built

MuziqueHub (Web App) [Github](#) | [Demo](#)
- Search any musician to receive relevant data. (e.g. record label, biography, videos OR search upcoming concert information)
- Handled API requests, user authentication, and database management.
- MERN stack application utilizing Passport JS authentication.

Robogotchi (Web App) [Github](#) | [Demo](#)
- Browser based user creates a cyber-pet and must maintain its health over the duration of time.
- Passport JS authentication Express app, utilizing MySQL to store user data and Handlebars to render views to the client.

Professional Experience

Driver - Lyft / Uber   *November 2017 – Present*
